

What Is In A Name

Today names are used to distinguish one person from another and are usually chosen for the sound of the name or named after someone to honor them, but in biblical times names were chosen for their meaning and were used to describe the person. Titles are used to reference the position of one within an organization.

A small town carpenter's name has become the most powerful name in all the world. But why? The power of His name comes from what He has accomplished for us. The names of Jesus were used as descriptors of how He has influence in our lives.

The following are just some of the names, titles and descriptors used to identify our Lord. What significance do they hold for you? Can you think of others?
